

Cleaning Kayaks, Canoes & Inflatable Rafts

1. **After completing the basic checklist, inspect and clean** any components that apply specifically to the craft.
2. **Allow the craft to dry thoroughly** before using it in any other water body.
3. **Take special care to dry inflatables** before rolling them up.

Kayaks, canoes and all inflatables need to be cleaned, drained, and dried.

Any equipment that goes into the water needs to be inspected and cleaned.
